Rev. J. M. Frost of Nashville, Tenn., secretary of the Southern Baptist Sunday school board, addressed the convention. Dr. J. B. Cranfill created a laugh by suggesting the reverend gentleman had a cold name.

Rev. B. D. Gray, secretary of the home mission board, delivered a highly appreciated address.

Rev. G. W. Truett, pastor of the First Baptist church of this city, welcomed the visitors in a speech that was warmly applauded.

All Interested in Cotton Urged to Protect the Fleecy Staple.

Dallas, Nov. 6.—The boll weevil convention completed its labors Friday at 12 o'clock and adjourned. He said even snakes of some species destroyed insects, and declared skunks were of benefit as pest exterminators.

NOT JUSTIFIED.

Agent Brennan Says There Was No Reason For Killing of Indians.

Washington, Nov. 6.—The commissioner of Indian affairs Thursday received the following telegram concerning the Indian situation, from Agent Brennan, of the Pine Ridge agency, dated at Hot Springs, S. D.: "A sheriff and posse from Wyoming arrested nine Indians and their families near Edgemont, S. D. They are supposed to be apart of the party engaged in a fight Saturday. Tried to have them released pending investigation. Others insist on taking them to Douglas, Wyo., for a hearing. Mob violence threatened. The governor should be telegraphed at once to use all means to protect the Indians now under arrest. The United States attorney should be ordered to Douglas to see justice is done the Indians. In my opinion the killing of the Indians was totally unjustifiable."

In this connection, with secretary of the interior has requested the governor of Wyoming to protect the Indians. It has been decided to send a special agent to make an investigation.

Will Protect Them.

Hoyt, owner of the "Bar H" ranch. They have just been married by Justice Cochran and are now on their way to Niagara Falls for a honeymoon trip.

The expositions made of the boll weevil, boll worm and root rot plagues of the cotton plant were interesting and lucid.

POLICING OF ISTHMUS

If the New Government at Panama Demonstrates it Is a Solid One This Country Will Be a Valuable Friend.

Washington, Nov. 6.—The Associated Press is enabled to state this government will conduct affairs with a firm hand in the execution of the treaty of 1846. Orders have been sent to the various naval commanders in the Caribbean sea that the isthmus is to be policed, the transit kept open and also that bloodshed must be prevented at any cost. This is further than the United States ever has gone heretofore and in the opinion of officials here indicates that the establishment of the new government of Panama, if it proves stable

and orderly will have the wishes of the United States and the ultimate recognition and co-operation in conducting an orderly and permanent government of the isthmus. Advocates of the construction of the Panama canal say this assures the execution of the project.

The dispatch from the executive board of the new government announcing the provisional government of the republic of Panama stated that its action was in response to a popular and spontaneous demand on the part of the isthmian people and that the board was assured of the necessary military strength to carry out its determination. The departure of the troops from Colon greatly relieves the seriousness of the situation, and the arrival of the Dixie relieved the general apprehension here regarding the safety of American lives and property.

This government, it was said, was interested, but not surprised to note the European approval of its policy as shown in the Associated Press dispatches from London, Berlin and Paris, but it was added by a high official the restoration of order on the isthmus and its maintenance had long been desired by the European powers.

AGREED TO LEAVE.

Generals Thought it a Good Plan For Them to Depart.

Colon, Nov. 6.—After a conference Governor Torres, commander of the government troops, seeing the situation was helpless, agreed to embark his soldiers on the mail steamer Orinoco, sailing for Cartagena at 6 p. m. Thursday. A special train from Panama will bring General Tovar, who will also sail on the Orinoco.

The people of Colon are now jubilant. The flag of the new republic flies from the railway stations at Guan and Bohio Soldad, near Colon. Troops from Panama will doubtless take charge of the city. Part of the troops have already embarked on the Orinoco and the ammunition has been taken aboard.

BITTER ATTACKS.

William Nixon Severely Handles Attorney William Guthrie.

New York, Nov. 6.—The features of Thursday's session of the hearing in the United States Shipbuilding case were the bitter attacks made by William Nixon upon William Guthrie, counsel for the defendants and representatives of the interests of Charles M. Schwab, by his methods of cross-examination, leading questions by Mr. Ntermoyer, counsel for the complainants, as to the absence of competition between the Bethlehem Steel company and the Carnegie plant of the United States Steel Corporation in government contracts for armor plate; and the entire change of front of Mr. Guthrie, who heretofore had aimed to bring out the fact that the value of the constituent plants of the United States Shipbuilding company was not overestimated.

Mr. Nixon was on the stand all day. His cross-examination was finished and the re-direct examination partly completed.

Charged With Grand Larceny.

Seattle, Wash., Nov. 6.—Frank B. Poor, president of the Citizens Light and Power company, recently organized as a rival of a company of the same name which was incorporated in New Jersey, which was incorporated in warrant issued from the court of general sessions, New York City, charging him with grand larceny in the first degree.

Comanche, I. T., Nov. 6.—L. M. Harris was held up by a lone highwayman one and a half miles west of town and relieved of a small sum of money. There is no clew to the party who did

FOLLOWED SUIT.

Colon Has Done as Panama Did by Giving Up to Revolutionists.

Paris, Nov. 6.—The French foreign office received a dispatch from the French consul at Panama confirming Associated Press dispatches from the city and from Colon. The consul says: "Colon has now followed the course of Panama and is passing into the hands of revolutionists. Transfer followed extended negotiations between Colombian troops and the revolutionary element. This culminated Thursday evening, when Colombian troops surrendered and immediately embarked. The change occurred without bloodshed. The United States gunboats Nashville and Dixie, with 450 American marines co-operating with the railroad company in maintaining order."

Another dispatch from the consul says: "Frederico Boyd Jose Aranjup and Thomas Arias, representing the provisional government, communicated to consuls of foreign powers that a new state had been constituted."

The consul adds: "The new state assume all former treaty and legal obligations of Colombia."

The last information is regarded by officials here as being most important, as showing no disposition on the part of the new republic of Panama to repudiate canal or other property rights acquired from Colombia.

IS RECOGNIZED.

This Government So Notifies Its Representatives on the Isthmus.

Washington, Nov. 6.—The United States government has recognized the de facto government of Panama. It was announced at the state department that after the return of Secretary Hay from a cabinet instructions had been sent United States Minister Beaupre at Bogota, assuming that he had not yet left the capital, and to Mr. Ehrman, United States vice consul at Panama, and now acting consul there, to inform the governments of Colombia and Panama respectively that the de facto government is recognized.

Gudger Instructed.

Washington, Nov. 6.—Consul General Gudger arrived from Asheville, N. C., and received instructions preliminary to his departure Sunday for the isthmus of Panama. Rear Admiral Coghlan received orders to convey the consul general to the isthmus on the converted yacht Mayflower, which sails Sunday for Colon at full speed.

Dixie at Colon.

Washington, Nov. 6.—The navy department received a cablegram from Commander Delano of the Dixie announcing his arrival at Colon. The cablegram states that Colombia troops evacuated and that the situation is quiet.

Proceeding to Panama.

Washington, Nov. 6.—The navy department received a cablegram from Rear Admiral Glass, commanding the Pacific squadron, announcing the departure of the Marblehead, Concord and Wyoming and the collier Nero at Acapulco, Mex., for Panama. The squadron is proceeding at full speed.

Landed Adequate Force.

Washington, Nov. 6.—Commander Delano cables that he landed an adequate force of marines from the Dixie, and blue jackets which landed from the Nashville embarked on the latter. The Dixie carries 400 marines.

IN BRYAN'S FAVOR.

Court Holds There Is No Evidence of Undue Influence.

New Haven, Conn., Nov. 6.—Judge Cleveland in probate court has announced that he decided there was no undue influence by William J. Bryan over the late Philo S. Bennett in construction of the latter's will, but that the sealed letter, about which there has been so much contention, is not incorporated in the will. He finds the document properly executed. In the last paragraph of the decision appear these words: "It is not the province of this court in probating a will to construe its provisions."

Emperor William's Yacht Will Take Part in Contest For Cup.

Berlin, Nov. 6.—Emperor William's schooner yacht Meteor will go to the United States in the spring to take part in the ocean yacht race for the emperor's cup. Several changes have been ordered in the Meteor's rig, the most important of which is the reduction of her sail area so as to avoid being heavily handicapped. She will sail in the transatlantic race with 11 her German crew.

No Limit to Chinese.

San Francisco, Nov. 6.—An agent of the Commercial steamship line, just returned from Mexico, says President Diaz in the new arrangements with this company places no limit on the number of Chinese which it may bring into the port of Manzanillo each month. He also says Mexico needs 1000 Chinese to work in the mines and on the plantations.

The Ordeals of a Doctor.

It is often claimed by outsiders that having a profession dulls a woman's sympathies, but I cannot believe that this is true in the practice of medicine, where one side of the work is so immeasurably sad. I have seen a baby that came after fifteen years of waiting and hoping and was rejoiced over daily and hourly for a wonderful year suddenly struck down and gasp its little life out in a day with pneumonia. These are the times when it hurts to be a doctor, to find that all the knowledge that you possess, all the skill at your command, is as so much chaff before the wind. To have a woman cling to you, begging you to save her baby, is an ordeal to which no human being can grow callous. You must feel as though the brand of Cain were upon you when, with all your efforts, you cannot save the little life. Not years nor experience can lighten hours such as these.—Everybody's Magazine.

Storms of Old England.

In the year 944 in London alone 1,500 houses were blown down; in October, 1091, a great number of churches and 500 houses were destroyed; in 1235 it thundered for fifteen days consecutively. The dreadful night during which Cromwell's spirit passed has formed a theme for poet and partisan. And the great storm that "o'er pale Britannia passed" in November, 1703, the most terrible in British annals, also has its enduring record in poetry. It did damage in London to the amount of £2,000,000; over 8,000 people were drowned in floods in various parts of the country; twelve men-of-war, with over 1,800 men on board, went down in sight of land, and the Eddystone lighthouse, along with Winstanley, its inventor, was swept away.

Jewels on an Idol.

The jewels of an Indian idol must be worth stealing if many of those remarkably hideous images possess such valuable head ornaments as one made for the idol Parthasathy, in the Triplicane temple at Madras. The ornament is worth some 50,000 rupees and is made of sovereign gold studded with diamonds, emeralds and rubies, the largest emerald being valued at 1,000 rupees and the biggest ruby and diamond at 300 rupees apiece.

Pull.

The doctor was sanguine. "We're going to pull you through!" quoth he.

"By the leg?" querulously demanded the patient, a sordid man, whose soul, even in that extreme moment, brooded on the matter of expense.—Puck.

Professional.

"Are you blind by nature?" asked the charitably inclined citizen.

"No, sir," candidly replied the beggar. "I'm blind by profession."

You Can Be Cured.

No. 11 Cedar Terrace, Hot Springs, Ark., April 28, 1903. When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days of every month, and had intense bearing down pains. My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all. A friend who was calling on me brought me a bottle of Wine of Cardui and was so loud in its praise that I told her that I would take it to please her. I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.

Mrs. Etta Finnegan

WINE OF CARDUI

Mrs. Finnegan had little hope of relief because she knew that every time she had those spells of menstrual suffering with attendant bearing down pains she was weaker. And every month the pain was growing more severe.

But Mrs. Finnegan was cured by Wine of Cardui. She is now so well that there are few women who would not be glad to have the health she has. And any woman who has those dreaded bearing down pains have the same relief.

You can be free from menstrual irregularities if you take this pure wine. Why don't you take it when you see what it has done. Secure a bottle of Wine of Cardui today.
